

N-able MSP **Elite** PARTNER

FOR IMMEDIATE RELEASE

prototype:IT Awarded MSP Elite Partner Status by N-able Technologies

Managed Services Innovator Recognizes prototype:IT as Top-Performing MSP and Channel Partner Providing 100 Percent IT Coverage to Customers

IRVING, TEXAS, JANUARY 21, 2011 — **prototype:IT**, announced today it was named an MSP Elite Partner by [N-able Technologies](#)[®], the global leader in remote network and systems management (NSM) software for IT departments and [managed service providers](#) (MSPs). N-able's MSP Elite Partners represent the company's top-performing partners worldwide and many are also recognized as the IT industry's fastest growing and most successful MSPs.

prototype:IT was named an MSP Elite Partner as a result of its overall performance and leadership as an N-able partner, as well as its proven expertise in delivering 100 percent IT coverage to customers through managed IT services. Only a select group of N-able partners have been appointed to this influential group.

"The (prototype:IT) team has distinguished itself within our global MSP community through its commitment to thought leadership and innovation, and we're pleased to welcome them into our prestigious Elite Partner program," says N-able CEO Gavin Garbutt. "Our Elite Partners are not only well-versed on the N-able N-central NSM platform and dedicated to delivering a valuable return on investment to their customers, but they also truly set new standards of excellence for the industry overall. We congratulate them on their continued success."

N-able's MSP Elite Partners are evaluated on a variety of criteria including their overall business and technical expertise, as well as their working relationship with N-able. In addition, these partners serve as services advocates within the IT industry and continue to post strong year-over-year growth and increases in profitability.

"It is an honor to be recognized as an MSP elite partner. It is our team's hard work and dedication to providing excellent customer service that has made this distinction possible," states President Doug Oppenheimer. "With the ever changing technical landscape, N-able products are now allowing our team to be even more vigilant and adaptive in resolving our customers' requests."
